DETAILED ACTION

This is a supplemental action responsive to the telephone conversation between Examiner Mathew and Mr. Richard Lazarus on November 15, 2005. The rejections have not been changed, but have rather been clarified in order to provide a more clear record of the grounds of rejection.

Claim Rejections - 35 USC § 102

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 2, 3, 11, 14, 15, 17, 22, 23, and 24 rejected under 35 U.S.C. 102(b) as being anticipated by Bosch. Referring to claims 22 and 24, Bosch teaches an elongated tube (4), a pair of handles (5), an engaging member having a first side and an opposite side, the engaging member having a width and a length between a first end and a second end with the length being greater than the width and with the engaging member being flexible along substantially its entire length, the first side including an adjustable portion (3) whereby the first end and second end are releasably fastened in different positions to permit engaging different portions of a user's body, and the opposite side including a channel (20, 21) slidably engaging the elongated tube along the length of the elongated tube for adjustably locating the engaging member on the elongated tube. (Note that tube 4, slidably engages with tube 25 which is fixed to channel (20). Therefore as broadly interpreted, channel 20 slides with respect to tube (4). Examiner further notes that it is appropriate to refer to reference numeral 4 as a

Application/Control Number: 10/774,719

Art Unit: 3764

tube in light of support in the specification.) Referring to claim 23, Bosch teaches the channel comprising a flexible material (nylon). Referring to claim 2, Bosch teaches the elongated tube includes a pair of ends and further comprising an other handle secured to the elongated tube, each handle associated with a respective one of the ends of the elongated tube. Referring to claim 3, Bosh teaches the engaging member comprising nylon. Referring to claim 11, Bosch teaches the channel comprising a strip stitched to the engaging member. Referring to claim 14, Bosch teaches the engaging member including connecting portions releasably securable to each other to form a loop configured to receive the portion of the user's body. Referring to claim 15, Bosch teaches the use of hook and loop fasteners. Referring to claim 17, Bosch teaches the body engaging member comprising nylon.

Claim Rejections - 35 USC § 103

- 3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 4. Claims 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bosch alone. Bosch teaches the claimed invention including the first and second connecting end being connecting portions and including hook and loop fasteners. The feature of having the ends rounded are considered a matter of obvious design choice, as it appears that the Bosch device would perform equally well absent unexpected or undesired results.

Application/Control Number: 10/774,719

Art Unit: 3764

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fenn C. Mathew whose telephone number is (571) 272-4978. The examiner can normally be reached on Monday - Friday 9:00am - 5:30pm.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
